

## New Styles for this Fall

*Below is the transcript/translation for the video:*

- Here we are to show you the new trends that we have for this fall
- Obviously I have a new guest and friend of mine, Vivian, a fabulous model.
- We are going to show you two beauty...hair styles that are, one is going to be lifted up...and the other one is going to be loose
- Obviously we have to start washing the hair, and what do we wash the hair with? For this season where the scalp sometimes gets so dry... we have... is one of our shampoos that we have that is called the Dry Scalp Care, that comes with its conditioner.
- So, the hairstyle we are going to do, the first style we are going to do is very seventies
- Has the body...the hair really thick, but I love it
- We are going to create this one too
- Vivian has layers, obviously you are going to start rolling the middle part of the hair so the ends are included
- So, we have Vivian with these two...this is to create volume on the top
- We are going to start curling the side of the hair...ok?
- They have to be big tufts because it curls really curly, right?
- Son como unas ondas muy desordenadas lo que vamos a empezar a hacer con el, ok? (they are like really untidy curls what we are going to start doing with it, ok?)
- Imagining that the hair is like curly but you don't want, you don't want it to be overdone, you don't want it to look fake, it looks as if it was natural
- A little bit of the ends now...right?...to create more body for the hair, so you have different types of thickness of...curls on your hair
- This is going to help us to cause a little bit of volumen on the hair roots

- So we are going to keep putting waves, to integrate the hair waves...that I have done with the waves I did before, right?
- Well, and this is the result from the waves...of your... there are two different wave sizes that I did on this kind of hairstyle....with a small curly iron and with a bigger one, thicker, right? And this is the result of...of the job, right?
- Obviously really natural.... And the messy....you see that you can't see anything...it looks messy, and it looks natural...
- And obviously then we will achieve the pony tail that we are talking about, really really beautiful, really modern, many celebrities in the industry world have it
- What we are going to talk about is...this pony tail is really famous, right?...we are going to start to raise the top part of the head a little, right?
- We are going to gather... part of the hair, and we are going to put it with a band
- Really important that the band doesn't split the hair
- Raising the part that I want to have body
- And we are going to retouch with a piece of her hair...we are going to...you are going to comb it well...you will roll it, trying to create a cleanliness....as if you have a....a clean rollup
- And these are the results...this is a new trend that we have for the fall...until next time girlfriends....bye bye, thanks
